## RAW EGG VANDALISMS

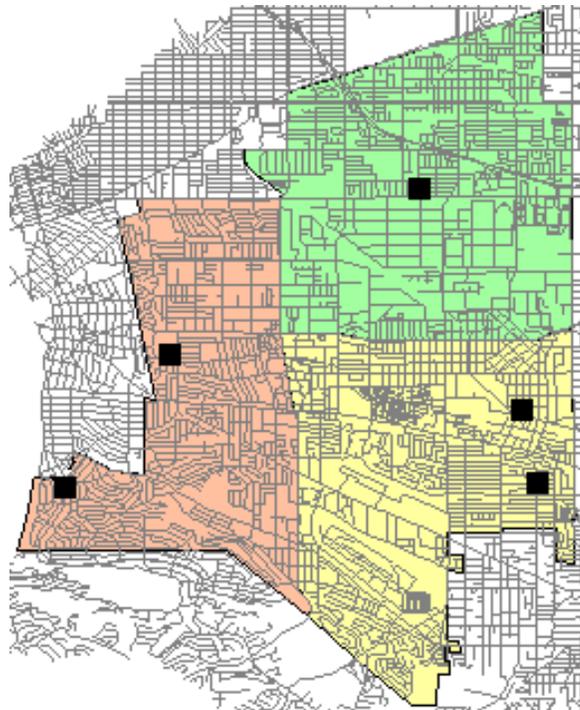

### RESIDENCES & VEHICLES

December 08, 2016

**DETAILS:** In recent weeks, suspects have been targeting residences and parked vehicles in numerous Torrance neighborhoods (refer map at right) by throwing raw eggs at them while driving past in a vehicle. Witnesses report seeing multiple suspects in the suspect vehicle at the time the eggs are thrown from same. The crimes are occurring during the daytime as well as evening hours on both weekdays and weekends. One victim reports there have been ten incidents involving his property.

### DAMAGING VICTIMS' PROPERTY WITH EGGS IS A CRIME; IT IS NOT INNOCENT MISCHIEF.

Eggs can break residence and vehicle windows, dent the body of a car and chip and/or degrade residence and vehicle paint. Dried egg can be difficult to remove and removal attempts can also damage the surface involved.

The black vehicle pictured at right is believed to be involved in these vandalism crimes.
