SOUTH BAY
BICYCLE
COALITION

Made possible by funding from the Department of Health and Human Services through the Los Angeles County Department of Public Health

Grant Goal

To create one bike plan with proposed policies, bikeway network and signage that all seven cities adopt.

Made possible by funding from the Department of Health and Human Services through the Los Angeles County Department of Public Health

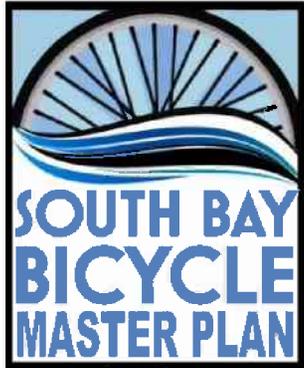

Plan Purpose

To provide the strategies and actions necessary for an improved bike environment across the seven cities, through **bikeway expansion, increased connectivity, and policies and programs that work to support increased biking and road safety.**

Made possible by funding from the Department of Health and Human Services through the Los Angeles County Department of Public Health

Benefits of a Bike Plan

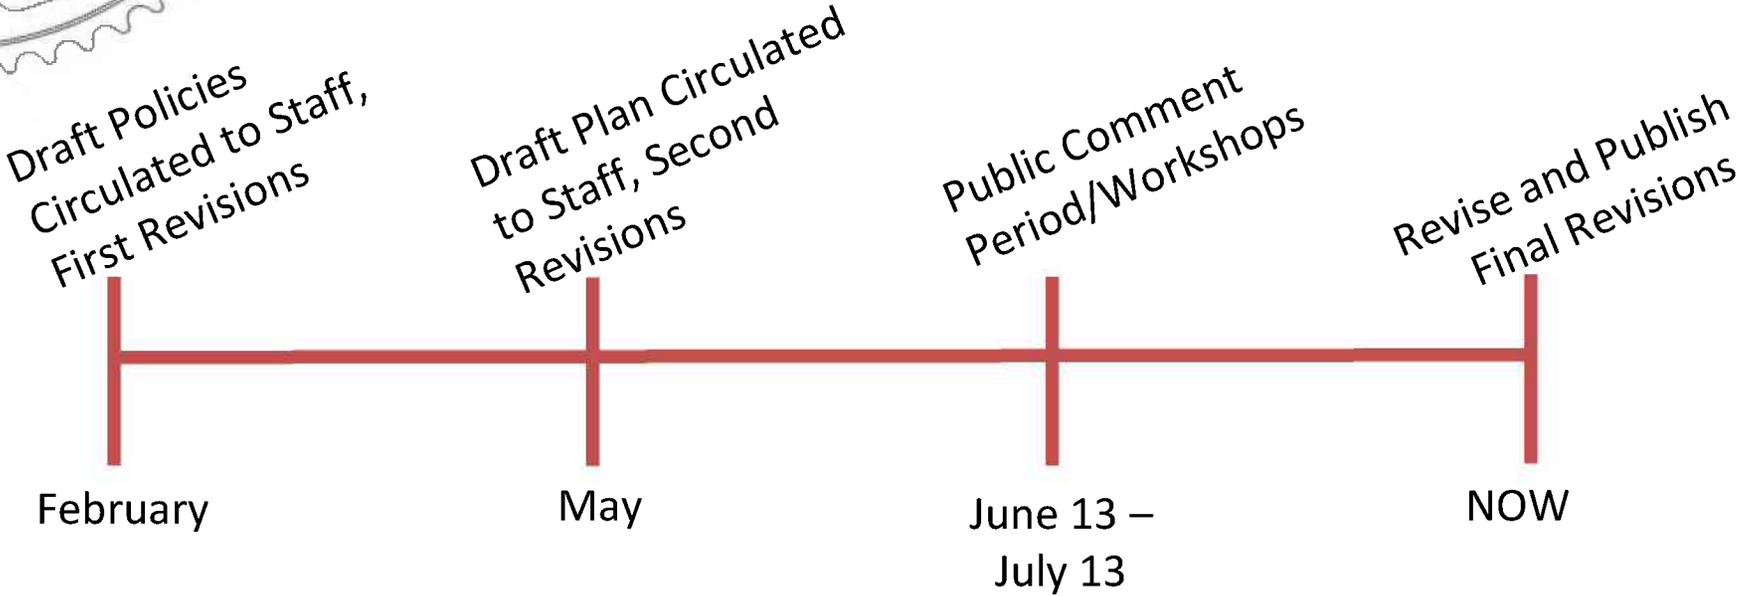

- **Eligibility for grant funding that the City is not currently getting**
- Aligns with Torrance's commitment to sustainability
- Assists with City's air quality impact mitigation requirements
- Increased bike ridership
- Decreased bicycle collisions
- Improved road safety
- Comparatively cost-effective infrastructure

Made possible by funding from the Department of Health and Human Services through the Los Angeles County Department of Public Health

Process To Date

Made possible by funding from the Department of Health and Human Services through the Los Angeles County Department of Public Health
