* Lowest Responsible Bidder				
** Non-Responsive Bid per below.				
The bid of Access Pacific Inc. (API) was found to be non-responsive for the following reasons:				
1. API submitted a blank Exhibit 12-B: Bidder's List of Subcontractor form with their sealed bidder's submittal packet. Per Section 4106 of the Public Contract Code, this implies that API is fully qualified and will self-perform all of the work, except by subcontractors who will perform work amounting to less than 0.5% of the Total Base Bid. After the bid opening, API tried to submit a revised Exhibit 12-B: Bidder's List of Subcontractor form that included a list of subcontractors that they proposed to perform work on the project. Per Section 4109 of the Public Contract Code, this is not allowed.				
2. API did not obtain the official Bidder's Submittal packet from the City Clerk's Office as specified in the Notice Inviting Bids, and subsequently, did not submit their Sealed Bid on the official packet.
