AFTER SCHOOL CLUB PROGRAM STUDENT MEDICATION POLICY

GUIDELINES

The City of Torrance Community Services Department has established a Student Medication Policy for parents/guardians, participants and staff to follow when a participant needs to take medication during the Community Services After School Club Program.

Please note: The policy guidelines listed below are for students that are able to administer their own medication. The City of Torrance Community Services Department has established a separate Severe Allergy Medication Policy for dealing with participants with severe allergies. A "severe allergy" is defined as an allergy that would pose a life threatening danger without immediate medical assistance. "Immediate" is defined as the need for assistance in less time than it would take for the paramedics to arrive. If you believe your child qualifies, please submit a note from your child's doctor stating the nature and treatment associated with their condition.

- The following are the guidelines of the Student Medication Policy. The policy is based on the state guidelines. All medications that will be taken during the program must be listed on the participant's form and must be accompanied by a Participant Health Form.
- The medication bottle provided by the parent must have the original prescription label complete with the pupil's name, doctor's instructions and dosage.
- Over the counter medications will be allowed provided they are in their original bottle, and accompanied by a doctor's note prescribing their use. If it is necessary for the child to carry the medication at all times, the doctor needs to specify this on the form.
- A suitable measuring device should be sent along with the medicine if measuring is necessary.

STORAGE

All medications will be locked up in a location determined by the site supervisor.

ADMINISTERING MEDICATIONS

- Staff will not administer any medication. Either the child, the parent/guardian or a care giver designated by the parent/guardian will be responsible for administering the medications at the appropriate times.
- Staff will make every effort to remind participants of scheduled medication times.
