# Findings from Mediating Task Force

- Long Beach Transit (LBT) violated Public Utility Code threshold by not providing proper notice to TTS prior to the September 26, 2021 launch.
- LBT new routes are considered new and expanded service.
- New routes would compete with or divert patronage from existing TTS service.

# Recommended Resolution

- Long Beach Transit and Torrance Transit System agreed to convene and discuss opportunities to achieve greater coordination of services for the region.
