1	Wild Animal Fatality	0	Dog Attack, Fatal	0	Cat Attack, Fatal
0	Injured/Deceased Coyote (non-trapped)				

Resident Hazing

Hazing is an important tool for preventing nuisance coyote behavior. Residents are encouraged to safely use deterrents (sound, visual, uncomfortable approach) to discourage coyotes from interacting with people and exhibiting undesirable behavior in residential areas.

Coyote Reaction to Hazing

0	Hazed	4	Observed Coyote	3	Did Not See Coyote In-Person
<ul style="list-style-type: none"> - Responded to Hazing - Did Not Respond to Hazing - Unknown Reaction
