

My name is Cindy Tapp, and I am the Senior Program Specialist for the Early Childhood Education (ECE) program in the City of Torrance. Born and raised here, Torrance has always been home. Both of my children attended the ECE classes, and it was through that experience I fell in love with the community and nurturing environment.

I joined the ECE program in 2002 as a teacher for the Fun and Friends and Lollipop Tree classes and eventually became the Senior Program Specialist. I'm passionate about working with children, believing that each child grows at their own pace and deserves a caring, supportive environment where they can build confidence, develop social skills, and foster a love of learning.
